

Lazy Guy Distillery is located in the heart of downtown Kennesaw, just northwest of Atlanta. We are a first generation whiskey distillery using Georgia grown grains and fruits, but don't think we haven't done our homework. We've watched market trends in craft distilling and the explosion of the bourbon movement. We talk to whiskey drinkers and connect with what they want to see on the market as well as in our own product portfolio. True whiskey drinkers may have their favorite bourbon, rye or wheat whiskey, but occasionally may try a white whiskey, high-proof white dog or sip a brandy. What we learn from all whiskey drinkers helps to develop our spirit portfolio and will continue to influence future offerings. *More recipes are online @ [www.lazyguydistillery.com](http://www.lazyguydistillery.com).*

### Lazy Guy Distillery, Side Track Bourbon Whiskey **SKU#849918**
